

# First steps

You will receive your account number and a temporary password via E-Mail.

Sehr geehrte(r) John Doe,  
Der folgende Account wurde angelegt (oder das Passwort zurückgesetzt):  
Benutzername: Doe, John  
Account: 1507221842205  
Passwort: 88501  
Bei der ersten bzw. nächsten Anmeldung muss das Passwort geändert werden.  
WICHTIG für Heimbewohner: Wird das Passwort nicht geändert, so ist kein Internetzugang möglich.  
Die VADMIN-Seite ist im Heim nur über das Ethernet und nicht über das WLAN erreichbar.  
Virtueller Campus Graz / Betrieb

The temporary password must be changed to a self-chosen password as soon as possible. This MUST be done on a PC/laptop, NOT on a mobile device!

<https://vadmin.vc-graz.ac.at>

Open the link above.

Enter your “account number” as well as the “temporary password”.

Under the tab “Passwort ändern” enter your temporary password, as well as a new, self-chosen password!

If the password change was successful, you will be rerouted to the start page and a message stating “Das Passwort wurde erfolgreich geändert.” will appear.

To confirm your data has been saved in the system, log out and immediately log back in, using your new account information.

Under the tab “Eigene Daten“ you can check your account status as well as your personal data.

The screenshot shows a web browser window displaying the 'Eigene Daten' (My Data) page of the VirtueLLer Campus Graz system. The page is titled 'Virtueller Campus Graz' and 'Eigene Daten'. On the left, there is a navigation menu with options: 'Home', 'To Do-Liste', 'Personen', 'Eigene Daten', 'Passwort ändern', 'Einstellungen', and 'Abmelden'. The main content area displays various user profile fields:

- Benutzerkonto:** 1507221842205
- Status:** ACTIVE
- Transferstatus:** ACTIVE
- Name:** John
- Vorname:** John
- E-Mail:** jh@vll.at
- Telefonnummer:**
- Matrikelnummer:**
- Organisation:** VirtueLLer
- Studierendenheim:** WSC - Studentenwerk Wien Hofburggasse 20-22
- Datentransferkonto:** 1507221842205
- Transferlimit in GB:** 1GB
- Aktueller Datentransfer (Gesamt):**
- Verbrauch in Prozent:**
- Aktueller Datentransfer (Upload):**
- Aktueller Datentransfer (Download):**
- Spergrund:**

At the bottom of the page, a note states: 'Änderungen an den Daten können nur durch einen Heim-Administrator durchgeführt werden.'

# iOS: WLAN-Profil einrichten

You will receive your account number and a temporary password via E-Mail. The temporary password must be changed to a self-chosen password as soon as possible!

First steps

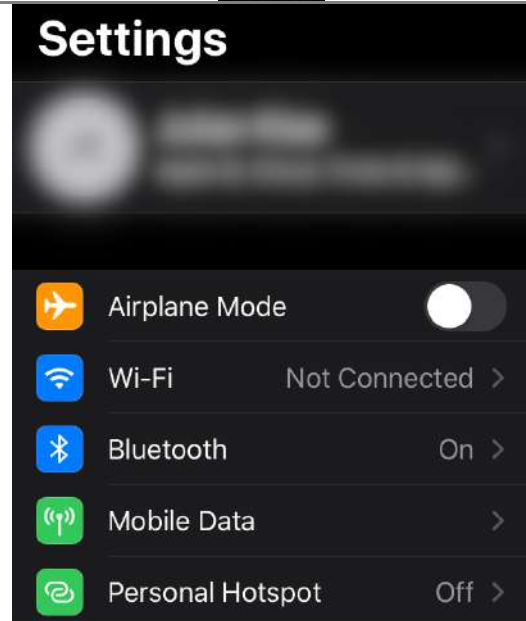

If there have been previous, unsuccessful attempts to set up a WIFI connection, the WIFI profile must first be deleted.

iOS: delete WIFI profile

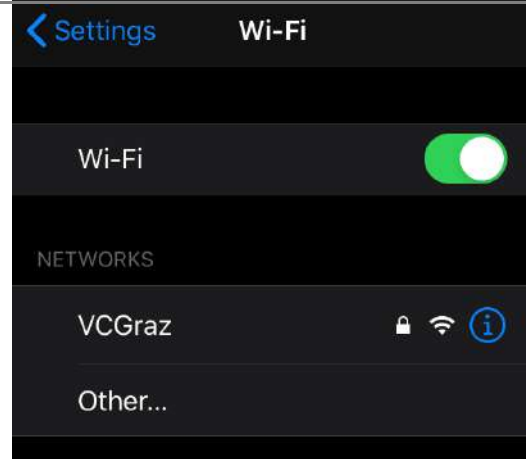

Enter settings by pressing the “gearwheel”.

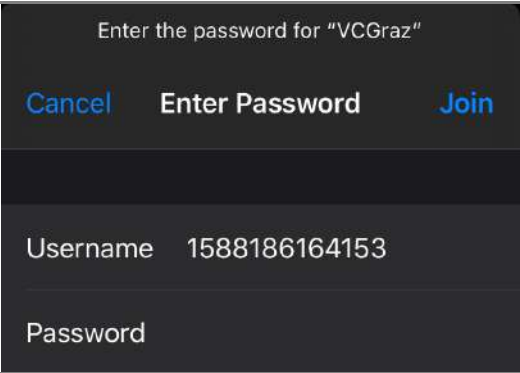

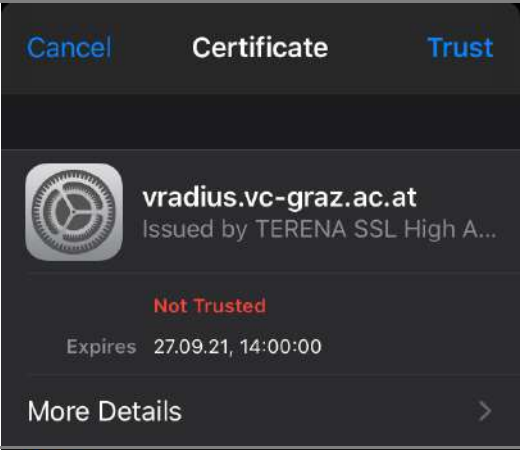

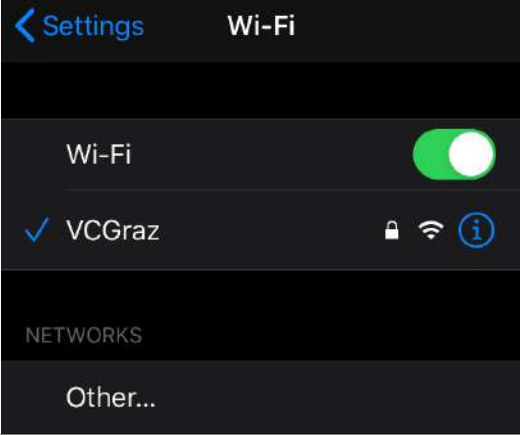

Select “WIFI” in the settings menu.

Select the WIFI network “VCGraz”.

<p>Enter your “<b>account number</b>” as well as your <b>new</b> “<b>password</b>”. Confirm by pressing “<b>Join</b>”.</p>	 <p>Enter the password for “VCGraz”</p> <p>Cancel Enter Password Join</p> <p>Username 1588186164153</p> <p>Password</p>
<p>If asked about a certificate: Confirm with “<b>Trust</b>” to finish the setup process.</p>	 <p>Cancel Certificate Trust</p> <p> <b>vradius.vc-graz.ac.at</b> Issued by TERENA SSL High A...</p> <p>Not Trusted</p> <p>Expires 27.09.21, 14:00:00</p> <p>More Details &gt;</p>
<p>If the connection has been established, a blue checkmark will appear next to the network name.</p>	 <p>&lt; Settings Wi-Fi</p> <p>Wi-Fi <input checked="" type="checkbox"/></p> <p>✓ VCGraz   </p> <p>NETWORKS</p> <p>Other...</p>
<p>If the connection could not be established, the WIFI profile must be added manually.</p>	<p>iOS: set up WIFI connection alternative</p>

## iOS: set up WIFI connection alternative

You will receive your account number and a temporary password via E-Mail. The temporary password must be changed to a self-chosen password as soon as possible!

First steps

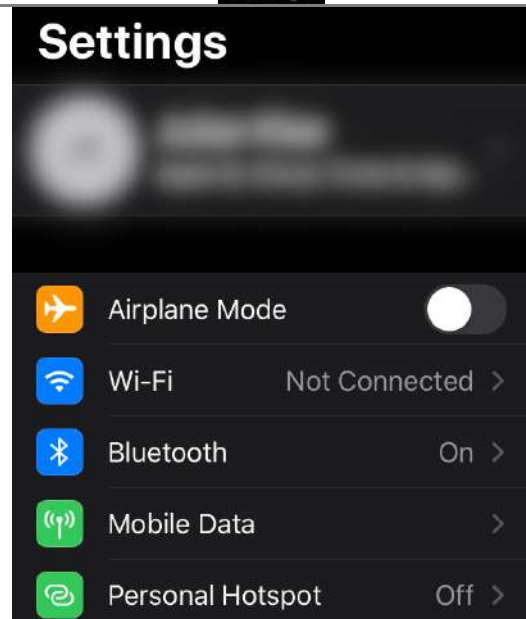

If there have been previous, unsuccessful attempts to set up a WIFI connection, the WIFI profile must first be deleted.

iOS: delete WIFI profile

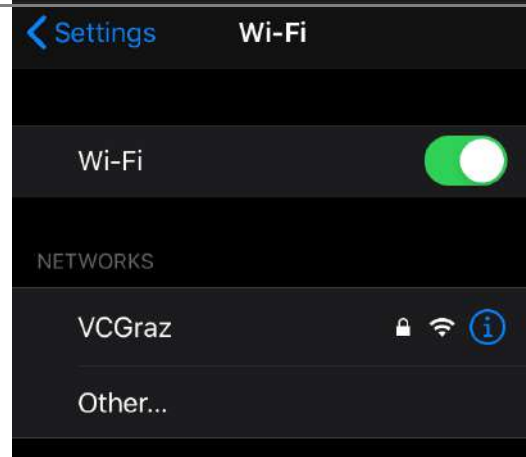

Enter settings by pressing the “gearwheel”.

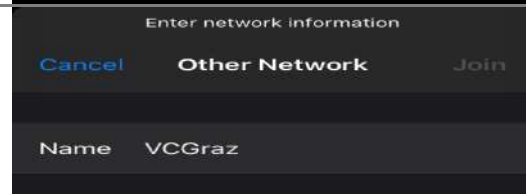

Select “WIFI” in the settings menu.

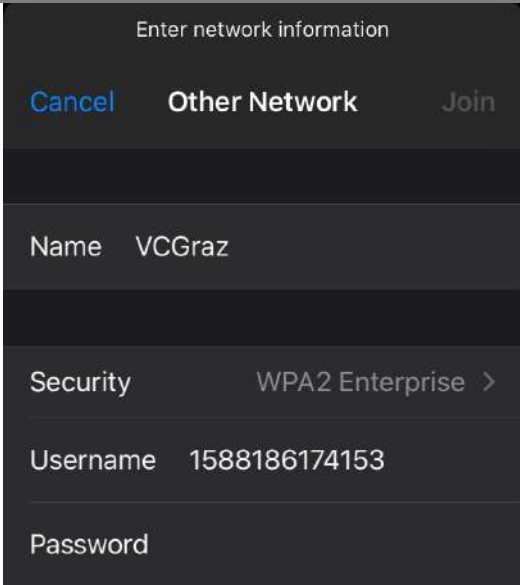

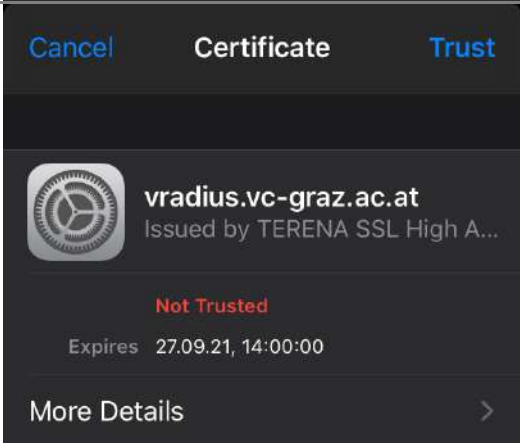

Select “Other” in the list of networks.

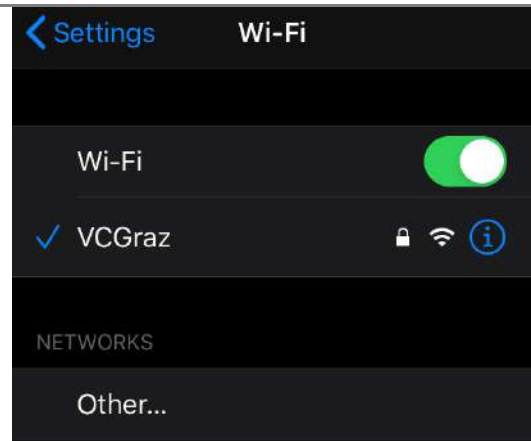

Enter “VCGraz” as name.

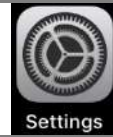

<p>Select "WPA2-Enterprise" under security.</p>	
<p>Enter your "account number" as well as your <u>new</u> "password". Confirm by pressing "Join".</p>	
<p>If asked about a certificate: Confirm with "Trust" to finish the setup process.</p>	

If the connection has been established, a blue checkmark will appear next to the network name.

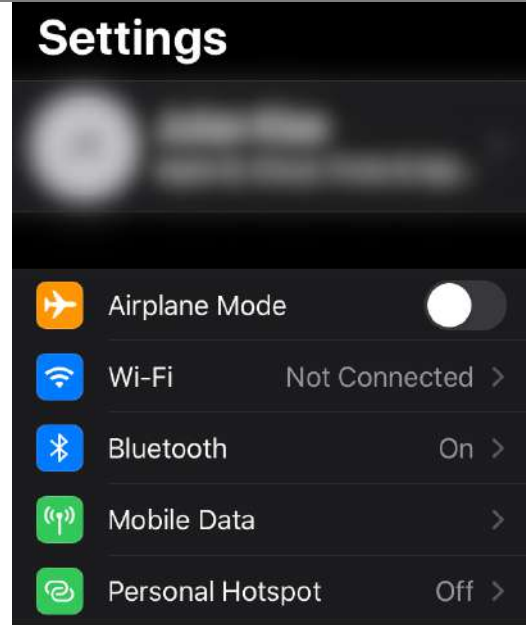

# iOS: delete WIFI profile

Enter settings by pressing the “gearwheel”.

Select “WIFI” in the settings menu.

Click (i) next to the network you want to delete.

By selecting “Forget This Network” and subsequent confirmation, the network will be removed from your device.
